<http://www.un.org/climatechange/> - Gateway to the UN System's work on climate change

Documentary:

Crude – the Incredible Journey of Oil. Highly acclaimed 1 ½ hour documentary in three parts with striking simulations of a different time on our planet and fascinating explanations of how oil was formed millions of years ago and what it means to use it today. First broadcast May 24, 2007; produced by geologist Dr. Richard Smith with the Australian Broadcasting Corporation, Science. <http://www.abc.net.au/science/crude/>
